I reviewed it and took a shot at making some changes. Feel free to modify from here. I am not sure about some of the timeframes for years of implementation of the remedies or the total number of trucks, so we should QC those. Also, my thought is that we should decide how we are going to proceed with the FS and PP once we meet with EQ before we finalize this strategy.

Jim & Michael,

Are you two working with Don and others to tweak/revise the draft strategy? I gave it a quick review and think it's a really good first draft, but some of the points need work – particularly the first bullet in the “Region 5 Position” section. It also reads as if the proposed plan has already been issued.

Subject: draft Allied strategy

I took a crack at drafting a communication strategy for allied paper.

Please forward to anyone I missed on distribution
